QJMOTOR

SRK 921

The Ultimate Street Ruler

As a flagship model in the SRK series, SRK 921 redefines performance boundaries with the presence of a street dominator. Built for advanced riders, this high-performance naked bike features a 921cc four-cylinder engine that fuses raw power with precision handling. As revs climb, its unmistakable exhaust note cuts through the air, blending the dense four-cylinder rhythm with the agile soul of Eastern engineering. Every roar awakens the senses, delivering effortless command of the streets.

DESIGN

Look

Untamed Powerful Presence

The SRK 921 boasts pure Italian heritage, crafted by renowned Italian designers who infused every inch of this vehicle with sporty DNA and a fierce spirit. Its full-bodied, lean stance exudes raw power, as if every line and angle has been forged through relentless trials. Taut contours and sharp edges combine to create an intensely commanding presence.

A.Minimalist Single Swing Arm

The rear swingarm embodies minimalist aesthetics, delivering a striking visual impact while achieving a perfect balance of lightweight agility and eye-catching style.

B.Star-Spoke Wheels

The brand-new star-spoke mechanical skeleton design enhances both visual appeal and heat dissipation efficiency.

C.Dual High-Mounted Exhaust

The twin exhaust pipes and uniquely shaped taillight form a powerful triangular composition. The high placement prevents backflow during rainy rides, while the distinctive exhaust note creates a roaring statement on the street.

Aggressive Front Design The Soul of the Machine

A.Sharp LED Headlights
Cut through the darkness with an intense glare like the piercing eyes of a predator

B.Unique Bullhorn-Shaped Daytime Running Lights
Resemble a powerful beast ready to strike, hinting at the fierce energy lurking within

C.Razor-Sharp Front Lines
Razor-sharp striking contours create a commanding front face that radiates primal mechanical force with sci-fi war-machine vibes.

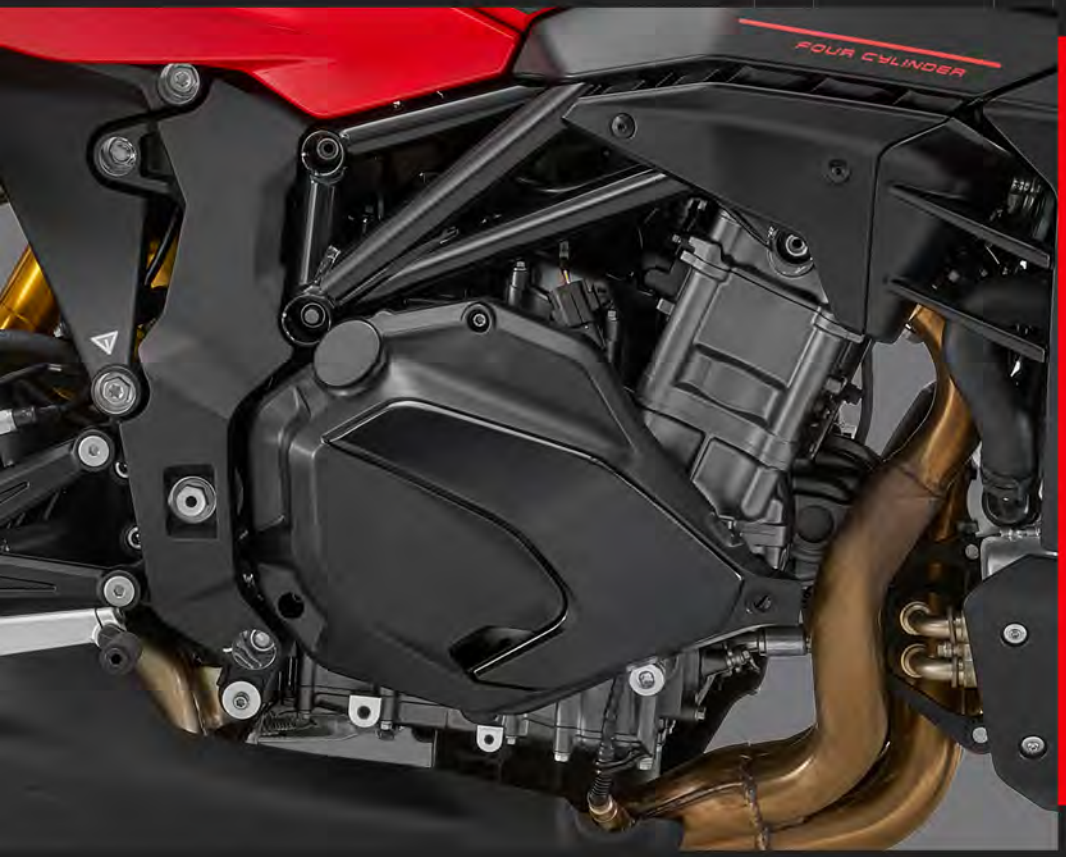
EQUIPMENT

Features

921cc Powerful Heart

Featuring a 921cc inline four-cylinder water-cooled engine delivering class-leading power performance with up to 127.9ps horsepower.The meticulously tuned power curve offers silky-smooth low-rev control and blood-pumping explosive high-rev power. As revs rise, raw power instantly unleashes, delivering adrenaline-pumping acceleration thrills.Peak torque 93.0N·m, with excellent high-rev performance and a top speed of 233km/h. Class-leading power output paired with a slipper clutch for smoother shifting and enhanced control.

ENGINE



Maximum Power

94kW/10000rpm (127.9ps) (E5+)

95kW/10000rpm (129.3ps)

Maximum Torque

93.0N·m/8000rpm

Signature Sound Note

SRK 921's "Super Sound" is its defining charm. Its deep, rich roar isn't just the soul of the ride - it instantly ignites passion and forges a powerful rider-vehicle bond. Beyond that, it stands as a distinctive auditory signature of QJMOTOR's technical excellence and sporty DNA.

- **At Startup**
  A Low, Menacing Growl

- **During Acceleration**
  Roar Rises in Pitch and Clarity
  Layered and Penetrating
  Commands Attention and
  Ignites the Senses

Three Major Tech Features

The Joy of Riding: Where Ultimate Control Meets Seamless Comfort

A. Electronic Throttle

Delivers precise response to delicate throttle input, combined with smart mode adaptation. Whether navigating city traffic or pushing through corners, power flows effortlessly, giving the rider exceptional control and confidence.

B. Bi-Directional Quick Shifter

Seamlessly shifts up with a light flick and down with a gentle tap, no clutch needed for lightning-fast gear changes. Liberate your left hand and experience acceleration and deceleration as smooth as butter, bringing rider and machine into perfect harmony.

C. Cruise Control

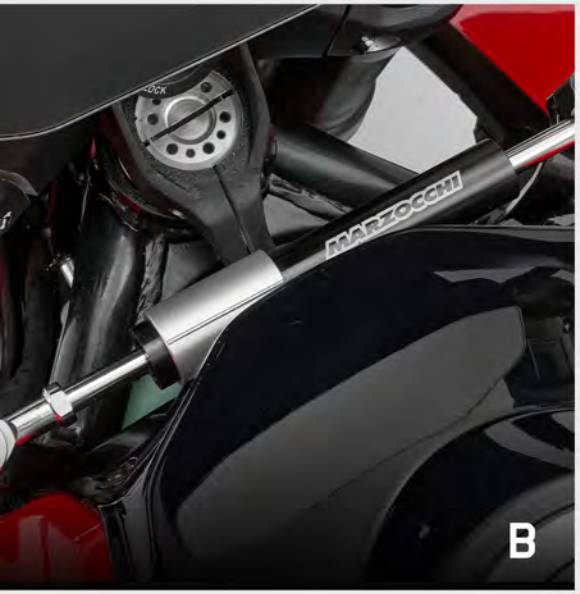
Free your right hand from constant throttle twists. Set your desired speed, and the system maintains precise power output automatically. Focus on the scenery ahead, control your journey's pace, and savor both the ride and the destination without compromise.

Precision and Agile Control

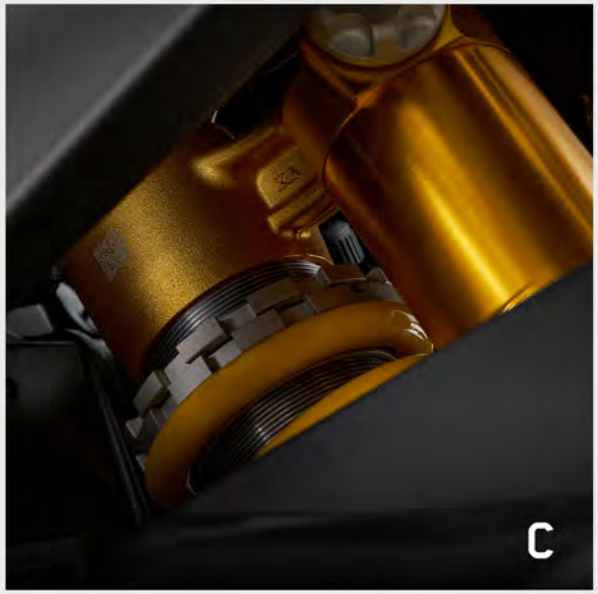
Built for urban travel and corner-
ing enjoyment

A.Steel-Aluminum Braided Frame

Lightweight yet offering nimble steering and solid dynamic re-
sponse, effortlessly weaving through city streets and alleys.



B



C

B.Steering Damper

Prevent speed wobble at high speeds, adding a layer of safety at top speeds for smoother, more secure handling.

C.Adjustable Marzocchi Front Suspension + Adjustable Rear Suspension

Front and rear suspension systems work in harmony, allowing riders to customize stiff-
ness and softness to match road conditions and riding style. Whether for commutes or corner attacks, the suspension delivers pre-
cise feedback in every scenario.

Sensing

Six-Axis IMU Sensor

Detects the vehicle's dynamic status in three dimensions, providing precise data.

Decision-Making

Cornering ABS

Activates ABS with lean angle compensation during emergency braking in corners, reducing the risk of sliding.

ABS+TCS

Prevents wheel lock-up and rear-wheel spin, ensuring stable control during sudden braking and on slippery surfaces.

Robust Braking Power

Linear, controllable, and reassuring

A.Front Opposed Twin Disc Brakes

Balanced for striking visual impact and efficient heat dissipation.

B.Front and Rear Brembo Calipers

Deliver rapid, direct, and smoothly controllable braking force. Whether in an emergency stop after aggressive acceleration or during precise, high-limit cornering, control is restored instantly, empowering the rider with full confidence to master any road condition.

Outstanding Sporty Performance

High-end gear inspires confidence on all terrains

A. Lightweight, High-strength aluminum alloy wheels

Effectively reduce unsprung mass, significantly improving suspension responsiveness and steering agility.

B. Front and rear 17" optimal sport-size tires

Perfectly balance precision handling with high-speed stability.

C. Pirelli Diablo Rosso High-Performance Tires

Deliver exceptional grip on dry and wet surfaces, outstanding cornering support, and precise road feedback.

User-Friendly Interaction and Easy Control

Built for urban cruising and cornering thrills

A.5" Wide TFT Display

Featuring a minimalist UI with comprehensive data display, built-in multilingual menus, smartphone connectivity, navigation display, tire pressure display, etc.; three switchable riding modes: Normal, Rain, and Sport.

A

B

C

B. Tip-Over Protection

Automatically shuts off the engine immediately upon vehicle tip-over or fall, effectively preventing oil leaks, fire hazards, and secondary injuries caused by rear wheel spinning.

C. Improved Handlebar Controls

Ergonomically designed button layout with smooth, comfortable tactile feedback, offering direct, effortless operation with clear response.

Options

满足骑士个性化需求与全方位保障

A.Driving Recorder

Loop recording of your rides to effectively capture riding conditions and road status to provide crucial visual documentation for your trips.

B.Tire Pressure Monitoring

Accurately tracks real-time pressure and temperature of front and rear tires, displaying data clearly on the 5" TFT display. Alerts you immediately to abnormalities, helping prevent tire-related handling risks and potential blowouts.

SRK 921
Parameters

Engine(High power version)

Type	4-Cylinder, 16V DOHC, Liquid-Cooled with oil radiator
Bore*Stroke	78.0*48.2mm
Displacement	921cc
Max.Horsepower	94kW/10000rpm(127.9ps)(E5+) 95kW/10000rpm(129.3ps)
MAX.Torque	93.0N·m/8000rpm
Fuel system	EFI
Starting system	Electric
Clutch	Wet multi-plate
Transmission	6 Gears, Chain

Chassis

Front suspension	Upside down telescopic forks
Rear suspension	Telescopic coil spring oil damped
Front tyre	120/70 ZR17
Rear tyre	190/50 ZR17
Front brake	Disc ø320mm (ABS)
Rear brake	Disc ø260mm (ABS)

Dimensions

Overall L*W*H	2130*930*1130mm
Wheel base	1425mm
Seat height	835mm
Ground clearance	145mm
Curb weight	223kg
Fuel capacity	15L

Homologation: E5+
